Let us design it for you. Simply sketch your closet, tell us about your needs, and we will contact you when we have a design ready for review. Measuring the exact dimensions is helpful, but don't worry if you are not too handy with the tape measure.. We will still come to your home for the final measurements and design.

Please use Black Ink.

Draw a top-down view of your closet on the grid below. Include wall measurements and ceiling heights/slopes. Please note height and thickness of baseboards or baseboard heating. Measure doors and windows, including molding. Tell us location and type of door (folding, sliding, etc.) and how it opens. There may be pipes, access panels, outlets, and switches in your closet. Be sure to tell us where they are, so that we can design around them.

We look forward to designing your closets with you.
